## Youth From Industrial School Makes Escape at Morrisville.

Morrisville, June 2.—Last evening E. L. The young man was securely handcuffed, which makes his successful escape all the more remarkable. No trace had been found this morning, when Sheriff A. D. Robbins and Mr. Ingalls started out on a searching expedition.

FACTIONAL  
FIGHT ON

## Clement and Mead Forces In Rutland

## CAUCUS TOMORROW NIGHT

## Fight Is Over The Election Of Delegates To The Republican State Convention.

Rutland, June 3.—Percival W. Clement and Dr. John A. Mead are today making the fight of their political lives to carry the caucus which will be held tomorrow evening in this city to select delegates to the state, district and county republican convention and the result is hard to predict with certainty.

Both men realize that it is political life or death, and each has a large corps of workers who have been over the city with a fine tooth comb during the past few days. The voter who has not been approached by both sides is a rarity. It is said that over 100 of the employees of the Howe Scale company has been exclusively engaged in campaigning for the past week, all of them taking this action at their own suggestion as they are strongly in favor of their employer, Dr. Mead, because of his action in settling the big strike at the works two years ago. They predict that over 400 of the 425 employees at the works will vote solidly for Dr. Mead's delegates to all three conventions.

The Clement workers are concentrating most of their energy toward securing the nomination for state senator of James A. Merrill, whose candidacy for delegate to the national republican convention was defeated by the Mead forces and if he wins over his opponent, Henry O. Carpenter, it will be considered a victory for Mr. Clement. Mr. Carpenter has the solid support of the Mead faction and until recently seemed sure of election.

## Ladies Of The Maccabees The Hostesses

## CONCERT AND BALL GIVEN

## Addresses Given By New York Ladies On The Work Of This Organization.

Never since its organization has Harmon Hive No. 1, Ladies of the Maccabees, of this city held so successful a public meeting as was held by them in Hale's pavilion last evening, and the able manner in which the origin and benedict features of the Order of Ladies of the Maccabees of the World were told in the addresses during the concert programme must be a great aid to the future growth and prosperity of Harmon Hive.

Last evening's entertainment was composed of a concert followed by dancing until 2 o'clock. There were fully 300 people present and all were thoroughly pleased with every part of the concert programme and the dances. Gilbertson's orchestra of six pieces played several selections in a very pleasing manner and also furnished excellent music for the dance programme.

The address of welcome was given by Mrs. Clara L. Lamb, lady commander of Harmon Hive. Mrs. Lamb extended a hearty welcome to the people in behalf of the Hive and spoke briefly on the work of the order in this city, saying that though the Hive was practically new in this city, having been organized in June, 1902, with 17 charter members, it has grown and prospered steadily and now had 72 active members and 17 social members.

Following the address of welcome a very enjoyable piano duet was given by Misses Ila Bateholder and Bessie Spear, after which Lady Eva L. McNett, Great Commander of New York, was introduced. She spoke on the origin and work of the Maccabees from the organization of the Supreme Tent of the Knights of the Maccabees of the World to the organization of the Supreme Hive of the Ladies of the Maccabees. Mrs. McNett is an enthusiastic worker among the Maccabees, having a thorough knowledge of the purpose for which the order was instituted, and her address was most interesting.

The origin of the Order of the Ladies of the Maccabees, she said, dates back to the year 1880, though the Order of the Supreme Tent of the Knights of the Maccabees, of which the lady Maccabees is an auxiliary branch, was established in London, Ontario, in 1878. The first ladies hive was organized in Massillon, Mich., in 1880, and was composed of some of the wives of the Maccabees of that city. From that time the work grew and spread until now there are hives in every union and the province of Canada.

There are now 2,567 subordinate hives with a membership of 135,921 women, and is now one of the most stable of the fraternal benevolent societies, having a balance of \$39,678.25 in its general funds and no unpaid debts. During the past 11 years, since the Supreme Hive, there has been paid out to the homes of distressed members a sum of \$2,983,327. "We have a disability list of 88 permanent and total disability members, who receive during life one tenth annually of the amount of their certificates, in sums of \$50 to \$200 a year as the case may be. Probably there is no other institution of women today having the direction of business of such magnitude, and the business of this great order is handled wholly by women."

Following this address Mrs. Carrie L. McNett, Great Record Keeper, of New York, gave a short but interesting talk on the growth and prosperity of the order.

The next address on the programme was to have been given by the Rev. T. H. Mitchell, who is the only known Sir Knight of the Maccabees of the world in this city but Mr. Mitchell was unable to be present and in the place of the address Dr. F. M. Lynde delighted the audience with two of his dialect recitations which closed the concert programme.

The floor was then cleared for dancing. The grand march was started at 9.30 led by Mr. and Mrs. D. C. Roben and Mr. and Mrs. Ed. Tobin, followed by about 60 couples. The dancing was concluded at 2 o'clock. Punch and ice cream and cake were sold during the dancing. Mrs. Arey and Mrs. Curtis serving the ice cream. Mrs. Blanchard and Mrs. McNeil tended the punch bowl.

The committee of introduction was Mrs. Myrtle Place, Miss Ida Glines and Miss Isabel Fraser. Mrs. Mattie Sawyer was floor manager and the aids were Mrs. Pearl Willis and Mrs. Susie Humphrey. The officers of Harmon Hive No. 1 of this city are: Past Lady Commander, Mrs. Elida Dunham; Lady commander, Mrs. Clara L. Lamb; Lieut. Commander, Mrs. Abbie Stone; Record keeper, Mrs. Theresa Lecourveau; finance keeper, Mrs. Margaret Smith; chaplain, Mrs. Lina Curtis; mistress at arms, Mrs. Ethel Tobin; sergeant, Mrs. Cornelia Slayton; sentinels, Mrs. Bertha McNett; picket, Mrs. Marie Jones.

## SWASEY'S RESOLUTION.

## Text of That Offered to the Democratic Caucus by Him.

George T. Swasey, who offered a resolution at the Democratic city caucus Wednesday evening, which the caucus refused to adopt, says The Times deliberately suppressed his resolution, that it did not correctly report him in what it did say about the resolution and that if it was not for the publisher's size he would thump the stuffing out of him.

In view of this direful threat and that the public can read and judge for itself, The Times publishes Mr. Swasey's resolution in full as offered by him at the caucus.

"Resolved, That the Democrats of this caucus are opposed to sending delegates to the St. Louis convention who bolied the tickets and platforms of 1896 and 1900, or who are interested in promoting any scheme to reorganize the party for the purpose of taking the control of the Democratic organization out of the hands of those who were loyal to the party in 1896 and 1900 and placing it in the hands of the boliers, and be it further resolved that the delegates elected at this caucus be and are hereby instructed to use all honorable means to secure the election of Charles W. Melcher as a delegate to the National Democratic convention to be held in the city of St. Louis, and such other worthy Democrats as are and have been in sympathy with the element of the party that controlled the National Democratic conventions of 1896 and 1900."

FIRE STATION  
FAVORED

## To Be Located On Library Lot

## COMMITTEE IS APPOINTED

## To Visit Cities and Inspect Fire Stations And Report With Plans.

A special meeting of the city council was held last evening to consider the matter of a new fire station, and before its adjournment it was voted to appoint a committee to make a tour of investigation of cities of about the size of Barre and to report back with plans. The majority of the council favors the library lot as a location for a fire station.

Mayor Barclay said the meeting had been specially called to consider the recommendation of the city meeting regarding the fire department and a fire station.

Alderman McKenzie told of what had already been done by the council and of the possible sites that would be had for a fire station. He said the old Church street school building, the Clan Gordon lot, and that corner of the library lot next the City hotel, had been suggested.

Alderman Robins asked if there were not some legal restrictions regarding the Church street school property. He thought the library lot the best location.

Alderman Bowden and Harks thought the school house site the best. Alderman Albisetti thought it would be some time before we got a fire station, but at the present time we ought to stop this calling out of every fireman at every alarm. He thought it ought to be arranged so that 12 men should go out on the first alarm.

Alderman Mackenzie thought the idea was all right but was doubtful if it would work. Alderman Robins did not believe you could make any such arrangement under the present conditions.

Chief Campbell said the matter of only a part of the firemen responding to an alarm had been considered by all the different companies and they had all decided they did not care to belong to the department under such conditions.

Mayor Barclay said he was in favor of a new fire station, and also in favor of a reorganization of the fire department; he opposes using the school house site and favored putting a fire station on the library lot—he did not favor giving the lot to the Aldrich library trustees for a library, there are such conditions to the Aldrich lot he did not consider it advisable for the city to put it out of its hands.

Alderman Mackenzie moved that Mayor Barclay appoint a committee to make a tour of inspection of fire stations for the purpose of bringing a set of plans and a report before the council of what will be best for a fire station for the city. It was so voted.

During the discussion of fire stations, building inspector Colburn reported that G. Tomasi, who was making repairs to his wooden block, had cut off the chimney at the second floor and hung it up in three 2x4 pieces of joist, with only one tier of bricks as a base for the chimney. He said the chimney was so loosely laid he could run a rule between the brick where there was not a particle of mortar.

Fire Chief Campbell said if it was not built inside of three months. The council instructed the building inspector to see that Mr. Tomasi reconstructed the chimney in a proper and safe manner, and to bring in a written report next Monday night.

Other business transacted by the council was as follows:

A petition for a fire alarm box at the corner of Washington and Camp streets was read and Alderman Mackenzie moved that it be referred to the fire committee, and that this box and three others, already petitioned for, be put in, if the committee finds it necessary. The motion was carried. Four fire alarm boxes will cost \$5
